My first priority would be to bring considerable important in the conduct of morning assembly for prayer is considered to be the health of mind. Prayer is the preface to the whole days functioning of the school. I want my teachers to assist me to accomplish this task. The moment we enter the gates of Vidyalaya we are on duty.

Let us teach our students to reach the assembly ground in proper lines. Let us train them to stand in straight lines let they not get an opportunity to indulge in frivolous talks. Let them understand the power of prayer for earnest prayer is never lost. Let them realize the sanctity of prayer and feel the serenity of morning.
